

**EMPLOYEES' RETIREMENT SYSTEM OF THE
COUNTY OF MILWAUKEE**

**ACTUARIAL VALUATION
JANUARY 1, 2009**

June 15, 2009

The Retirement Board
Employees' Retirement System of the
County of Milwaukee
901 N. 9th St.
Milwaukee, WI 53233

Ladies and Gentlemen:

This report presents the results of the annual actuarial valuation of the Employees' Retirement System of the County of Milwaukee as of January 1, 2009. The valuation takes into account all of the promised benefits to which members are entitled as of January 1, 2009, including pension and survivor benefits; and as required by the Retirement Code is the basis for the Budget Contribution for fiscal year 2010.

The valuation was based on the actuarial assumptions and methods as adopted by the Board of Trustees, including a valuation interest rate of 8% per annum compounded annually. Based on our recommendations in May 2007, the Board adopted revised actuarial assumptions effective with the January 1, 2007 valuation. Since the prior valuation, no changes were implemented.

Assets and Membership Data

The Retirement System reported the individual data for members of the System as of the valuation date to the actuary. While we did not verify the data at their source, we did perform tests for internal consistency and reasonableness. The amount of assets in the trust fund taken into account in the valuation was based on statements prepared for us by the Retirement System.

Pension Obligation Bond

A Pension Obligation Bond was issued by the County on March 19, 2009, yielding proceeds of \$397,797,000. This amount is treated as a receivable in the Market Value of Assets, but has not been included in the development of the NPO of the GASB statements. Under proposed Ordinance, the actuary has used a portion of these proceeds to offset all remaining unamortized contribution variances as of the valuation date (including the variance for the 2008 plan year). The remaining proceeds of \$363,950,833 are amortized over 30 years. We have based this valuation report on the proposed Ordinance being ratified. The proposed Ordinance is being proposed by the POB Work Group. Buck Consultants was a member of this Work Group and is supportive of this amendment. In the event the proposed Ordinance is not ratified, a new report will need to be issued.

Funding Adequacy

The 2008 valuation performed last year resulted in an Actual Funding Contribution of \$53,063,610, against which \$34,841,400 (adjusted for interest shown on Table 11) was actually contributed. The shortfall of \$18,222,210 has been offset by the proceeds of the sale of the Pension Obligation Bond per Ordinance. Future contribution variances will be amortized over five years.

The Actual Funding Contribution for 2009, based on the results of this valuation, is \$30,355,535. It is expected that \$30,992,423 (\$30,992,180 in expected contribution plus \$243 in expected interest) will be contributed during 2010 on behalf of the 2009 plan year. The excess contribution of \$636,888 will be amortized over five years.

Budget Contribution

The 2010 Budget Contribution, expected to be contributed in 2011, is \$38,548,000.

Financial Results and Membership Data

Detailed summaries of the financial results of the valuation and membership data used in preparing the valuation are shown in the valuation report. The actuary prepared supporting schedules and required supplementary information included in the County of Milwaukee Annual Report of the Pension Board.

Qualified actuaries completed the valuation in accordance with accepted actuarial procedures as prescribed by the Actuarial Standards Board. The qualified actuaries are members of the American Academy of Actuaries and are experienced in performing actuarial valuations of public employee retirement systems. To the best of our knowledge, this report is complete and accurate and has been prepared in accordance with generally accepted actuarial principles and practice. The undersigned with actuarial designations are qualified to render the opinions contained in this report.

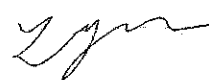

Respectfully submitted,

Executive Summary

This report presents the actuarial valuation as of January 1, 2009 for the Employees' Retirement System of the County of Milwaukee. The principal valuation results include:

- The Actual Funding Contribution for fiscal year 2009, which is \$30,355,535.
- The Annual Required Contribution for fiscal year 2009 in accordance with GASB requirements, which is \$30,355,535.
- The Budget Contribution for fiscal year 2010, which is \$38,548,000.
- The total funded ratio of the plan determined as of January 1, 2009, which is 95.7% based on the accrued liability and the actuarial value of assets. On a market value basis, the plan is 77.6% funded.
- The determination of the actuarial gain or loss as of January 1, 2009, which is a loss of \$70,007,095.
- Annual disclosure as of January 1, 2009 as required by Statement No. 25 of the Governmental Accounting Standards Board.

The valuation was based on membership and financial data submitted by the Retirement System.

Changes Since Last Year

Legislative and Administrative Changes

A Pension Obligation Bond was issued by the County on March 19, 2009, yielding proceeds of \$397,797,000. This amount is treated as a receivable in the Market Value of Assets. Per proposed Ordinance, the actuary has used a portion of these proceeds to offset all remaining unamortized contribution variances as of the valuation date (including the variance for the 2008 plan year). The remaining proceeds of \$363,950,833 are amortized over 30 years.

The benefit provisions and contribution provisions are summarized in Table 16.

Actuarial Assumptions and Methods

No changes in the actuarial assumptions have been adopted since the previous valuation.

The actuarial assumptions and methods are outlined in Table 15.

Contribution Amounts

The results of the valuation as of January 1, 2009 determine the Actual Funding Contribution and Annual Required Contribution for fiscal year 2009 and the Budget Contribution for fiscal year 2010. The Actual Funding Contribution and the Annual Required Contribution for GASB 25 disclosure for fiscal year 2009 are both \$30,355,535. The Budget Contribution for fiscal year 2010 is \$38,548,000. The actual 2009 contribution and budgeted 2010 contribution were based on assumptions adopted by the Board in May 2007 and participant data as of January 1, 2009.

Reasons for Change in Budget Contribution Calculated by the Actuary

The Budget Contribution calculated by the actuary decreased from \$56,491,000 for fiscal year 2009 to \$38,548,000 for fiscal year 2010. A reconciliation of the decrease of \$17,943,000 is shown in the following table:

Five-Year History of Actual Funding Contributions

Funded Ratio

The financing objective of the System is to:

- Fully fund all current costs based on the normal contribution rate determined under the funding method; and
- Liquidate the unfunded accrued liability based on the amortization schedules as required by the retirement code, i.e., a schedule of 5, 10, or 30 years for each change in the unfunded accrued liability according to Section 3.1.

The total Actual Funding Contribution of \$30,355,535, when taken together with the contributions payable by the members and asset returns, is the amount sufficient to achieve the financing objective for 2009.

The System's total funded ratio on the funding basis is measured by comparing the actuarial value of assets (based on a 5-year moving average market value) with the accrued liability. The accrued liability for pensions is the present value of benefits accumulated to date under the System's funding method and reflects future pay increases for active employees.

On this basis, the System's funded ratio is 95.7% as of January 1, 2009. This funded ratio is based on an actuarial value of assets of \$1,968,518,479 and an accrued liability of \$2,057,376,988.

Reasons for Change in the Total Funded Ratio

The total funded ratio increased from 80.4% as of January 1, 2008 to 95.7% as of January 1, 2009. The increase is primarily due to the pension obligation bond proceeds.

GASB No. 25 Disclosure

Statement No. 25 of the Governmental Accounting Standards Board established reporting standards for the annual financial reports of defined benefit pension plans. The System complied with Statement No. 25 beginning with the January 1, 1997 valuation. The statement requires disclosure of the “schedule of funding progress” and the “schedule of employer contributions” in the System’s financial statements.

The “schedule of funding progress” shows historical trend information about the System’s actuarial value of assets, the actuarial accrued liability and the unfunded actuarial accrued liability. The actuarial funded ratio is measured by comparing the actuarial value of assets (based on a 5-year moving average market value) with the accrued liability. The accrued liability is the present value of benefits accumulated to date under the System’s funding method and reflects future pay increases for active employees. On this basis, the System’s funded ratio is 95.7% as of January 1, 2009. This funded ratio is based on an actuarial value of assets of \$1,968,518,479 and an accrued liability of \$2,057,376,988.

The “schedule of employer contributions” shows historical trend information about the annual required contribution (ARC) for pensions of the employer and the percentage of the ARC contributed to the System. The ARC is equal to the normal cost for pensions plus amortization of the unfunded actuarial accrued liability for pensions. The maximum period of amortizing the unfunded actuarial accrued liability permitted by GASB No. 25 is 30 years. The maximum amortization period decreased from 40 years to 30 years in 2007. The employer contributions to the System are equal to the normal cost plus a payment towards each change in the unfunded accrued liability, which are amortized over 5, 10 or 30-year periods, depending on the source of the changes. The ARC and the actual employer percentage contributed for the six fiscal years ending December 31, 2009 are shown in Table 14.

Rate of Return

The investment return of the trust fund (i.e. total return including both realized and unrealized gains and losses) for fiscal years 2004 through 2008 is shown in the table below. The return based on the actuarial value of assets used for determining annual contribution rates is also shown.

The rate of return on market value reflects the investment earnings on the market value of assets from the beginning of the fiscal year to the end of the fiscal year. The actuarial assets are the assets recognized for valuation purposes. Actuarial assets are based on a smoothed market value that spreads the difference between the actual and expected return over a period of five years. The rate of return on the actuarial value of assets is a measure of the increase in the actuarial value of assets from the beginning of the fiscal year to the end of the fiscal year.

Annual amortization payments of the reestablished unfunded actuarial accrued liability (UAAL), and changes to the UAAL arising from plan changes, assumption changes, and actuarial gains/losses are amortized as a level percentage of payroll, assuming payroll growth of 3.5% per year over a 30-year period.

Administrative expenses incurred by the County related to the System are payable by the System to the County. The County then reimburses the System for this payment on a level dollar basis over 10 years.

The variance between the amount contributed to the System for a plan year, and the actual contribution requirement for that year is amortized on a level dollar basis over 5 years. Per proposed Ordinance, the Pension Obligation Bond proceeds were used to offset all existing bases at January 1, 2009 arising from variances between amounts contributed to the System and actual contribution requirements. This reduced the net outstanding balance of amortizations by \$33,846,167. The remaining amount of \$363,950,833 has been amortized as a level percent of payroll over a period of 30 years.

The budgeted contributions shown above for the 2010 and 2009 plan years were estimated based on participant data as of January 1, 2009, and January 1, 2008, respectively.

The actual contribution for the 2009 plan year was determined based on participant data as of January 1, 2009, and satisfies the pension accounting requirements of GASB Statement Nos. 25 and 27.

Changes in assumptions, methodology, and plan provisions since the prior valuation:

None, other than per proposed Ordinance, the contribution variance generated by POB proceeds was not subject to five year smoothing and outstanding contribution variances as of January 1, 2009 were offset against the POB proceeds.

MISCELLANEOUS

Percentage Married/Age Difference: Male 80%, female 80%. Beneficiaries are assumed to be the same age as the participant.

Percentage Married with at Least One Dependent Child: 21.6% for General Employees, 43.2% for Deputy Sheriffs and Elected Officials. For those who die prior to age 60, it is assumed at least one child will remain a dependent until the member would have turned age 60.

Backdrop Rate: 75% of eligible retirees are assumed to elect a backdrop. Of those electing, 75% are assumed to take the maximum period available to them and 25% take half the maximum period available based on eligibility for an unreduced retirement benefit.

Assumed Type of Disability: For represented employees the assumption is 10% Ordinary and 90% Accidental and for non-represented employees, the assumption is 95% Ordinary and 5% Accidental.

TABLE 15**DESCRIPTION OF ACTUARIAL ASSUMPTIONS AND METHODS**

(Continued)

METHODS

Calculations: The actuarial calculations were performed by qualified actuaries in accordance with accepted actuarial procedures, based on the current provisions of the retirement system, and on actuarial assumptions that are internally consistent and reasonably based on the actual experience of the System.

Actuarial Cost Method: Liabilities and contributions shown in this report are computed using the Aggregate Entry Age Normal Cost Method. The outstanding balance of the unfunded actuarial accrued liability (UAAL) as of January 1, 2004 and any changes to the UAAL arising from plan changes, assumption changes, and actuarial gains/losses are amortized as a level percentage of payroll over a 30-year period.

Administrative expenses incurred by the County related to the System are payable by the System to the County. The County then reimburses the System for this payment on a level dollar basis over 10 years.

The variance between the amount contributed to the System for a plan year, and the actual contribution requirement for that year is amortized on a level dollar basis over 5 years. POB proceeds were not subject to the contribution variance requirements.

Asset Valuation Method: A five-year moving market average value of assets that recognizes the actuarial expected investment return immediately and spreads the difference between the actual and expected return over a period of five years.

DATA

Census and Assets: The valuation was based on members of the System as of January 1, 2009 and does not take into account future members. All census data was supplied by the System and was subject to reasonable consistency checks. Asset data was supplied by the System.

TABLE 16**SUMMARY OF BENEFIT AND CONTRIBUTION PROVISIONS****MEMBERSHIP**

Any person regularly employed by the County at an annual wage or salary, including any person employed by the State of Wisconsin, but receiving part of his compensation from the County.

VESTING SERVICE

Service during period of employment in the County or in any department in any town, village, city or metropolitan sewerage commission in the County, which department has by consolidation or merger been absorbed by the County.

Creditable service shall consist of "prior service", "military service", and "membership service", for which service credit is allowable under Section 4, Chapter 201, Laws of 1937, as well as service under Executive Order 11231, July 8, 1965, for Vietnam. Additional credit for periods of military service will be earned in accordance with the following chart:

Years of Service with Milwaukee County	Maximum Years of Military Service Granted
0-4	0
5-9	1
10-14	2
15-19	3
20+	4

BENEFIT SERVICE

Same as vesting service except service prior to becoming a participant does not count.

EARNINGS

Earnable compensation is the full rate of compensation payable to member if he worked the full normal working time for his position, including authorized overtime payments and the compensation rate assumed to have been received while the member is on authorized leave of absence. In cases where compensation includes maintenance, the Pension Board shall fix the value of that part of the compensation not payable in

money. Compensation shall not exceed \$220,000 in the pension calculation as indexed for changes in the cost of living.

For all members except certain deputy sheriffs hired on or after January 1, 1982, the final average salary means the average annual salary for the highest three (3) consecutive years of service. For deputy sheriffs hired on or after January 1, 1982, excluding DA Investigators and non-represented deputy sheriffs, the final average salary means the average annual salary for the highest five (5) consecutive years of service. For DA Investigators and non-represented deputy sheriffs hired before July 1, 1995 and all non-deputy sheriff members hired before January 1, 1982, the final average salary is increased 7.5% for each year worked after January 1, 2001 to a maximum of 25%.

**VOLUNTARY
EMPLOYEE
CONTRIBUTION**

Up to 10% of earnings, provided that the employee was contributing on January 1, 1971.

BENEFITS

Normal Retirement

Eligibility

Elected Officials:

Age 60, or age 55 with 30 years of service. For elected officials hired before January 1, 2006, the combination of age and service adding up to 75 (Rule of 75) also applies.

General Employees:

For firefighters, Federated Nurses, and Machinists:

Age 60 with 5 years of service, or age 55 with 30 years of service. For firefighters hired before December 1, 1996, Federated Nurses hired before January 1, 1997, and Machinists hired before January 1, 1994, Rule of 75 also applies.

(Continued)

For Attorneys, Skilled Trades, non-represented employees, DC48, and Teamco:

Age 60, or age 55 with 30 years of service. For attorneys, Skilled Trades, and non-represented employees hired before January 1, 2006 and DC48 and Teamco hired before January 1, 1994, Rule of 75 also applies.

Deputy Sheriffs:

Age 57, or age 55 with 15 years of service. For deputy sheriffs, DA Investigators, and non-represented deputy sheriffs hired before January 1, 1994, Rule of 75 also applies.

Amount

Elected Officials

For elected officials hired before March 15, 2002, 2.5% of final average salary per year of service, not greater than 80%. For elected officials hired on or after March 15, 2002, 2.0% of final average salary per year of service, not greater than 80%.

General Employees

2.0% of final average salary per year of service, not greater than 80%.

Deputy Sheriffs

For deputy sheriffs hired before July 1, 1995 and DA Investigators and non-represented deputy sheriffs, 2.5% of final average salary per year of service, not greater than 80%. For deputy sheriffs hired on or after July 1, 1995, 2.0% of final average salary per year of service, not greater than 80%.

For all members, 1.6% of final average salary per year of service after 80% of final average salary has been reached.

In addition to the pension portion, the benefit includes any voluntary contribution balance. Benefits should not be less than under previous system.

TABLE 16

SUMMARY OF BENEFIT AND CONTRIBUTION PROVISIONS
(Continued)

Early Retirement

Eligibility	Age 55 with 15 years of service.
Amount	Benefits reduced by 5/12 of 1% for each month by which commencement of payments precedes Normal Retirement Age. For deputy sheriffs, DA Investigators, and non-represented deputy sheriffs, benefit reduction does not apply.

Ordinary Disability Benefit

Eligibility	After 15 years of service.
Amount	Benefits calculated as for normal retirement benefits. Minimum benefit is 25% of final average salary.

Accidental Disability Benefit

Eligibility	Immediate.
Amount	Benefits are the same as normal retirement benefits if the employee has attained the minimum Normal Retirement Age. If less than Normal Retirement Age at time of disability, the benefit is computed the same as for normal retirement but is not less than 75% or 60% of final average salary.

Elected Officials

For elected officials hired before February 19, 1987, the benefit is not less than 75% of final average salary. For all other elected officials, the benefit is not less than 60% of final average salary.

General Employees

For non-represented employees hired before February 19, 1987, attorneys hired on or after January 1, 1987, Skilled Trades hired before October 30, 1987, Federated Nurses hired before January 1, 1987, Machinists hired before May 18, 1988, DC48 hired before July 24, 1987, and Teamco hired before January 12, 1988, the benefit is not less than 75% of final

average salary. For all other general employees, the benefit is not less than 60% of final average salary.

Deputy Sheriffs

For all deputy sheriffs, the benefit is not less than 75% of final average salary. For DA Investigators and non-represented deputy sheriffs hired on or after February 19, 1987, the benefit is not less than 60% of final average salary.

Ordinary Death Benefit

Upon the death of a deputy sheriff in active service for any cause other than accidental, the surviving spouse or child shall be entitled to receive the benefit under the provision of survivor benefits if the deceased member has completed at least one (1) year of service and is not eligible for normal retirement.

Accidental Death Benefit

Upon the death of a deputy sheriff caused by an accident in active duty, a survivorship benefit equal to fifty (50) percent of final average salary shall be granted to the following members:

- 1) A surviving spouse for life or until remarriage, or
- 2) If there is no spouse or spouse dies or remarries before the youngest child has attained age 18, the benefit is payable to his child(ren) under age 18 until the youngest child attains said age, or
- 3) If there is no spouse or child(ren) under age 18, the benefit is payable to his dependent father or mother to continue for life.

The monthly benefit aforementioned shall not be less than the benefit under ordinary death benefit section if death had not occurred in performance of duty.

Lump Sum Benefit Upon Death

Upon a death of members, a lump sum benefit of one-half the final average salary of the deceased member, not greater than two thousand dollars (\$2,000) shall be paid to designated beneficiary if such member has completed one (1) year of service and no survivors' benefits payable under any other survivorship benefits.

TABLE 16**SUMMARY OF BENEFIT AND CONTRIBUTION PROVISIONS
(Continued)****Deferred Vested Benefit**

Upon termination of employment, a member who does not elect to withdraw any part of his membership account shall be eligible for a deferred vested benefit if:

- 1) The accrued benefit at age 60 is at least \$10 per month
- 2) 5 years of service

The benefit is computed the same as for a normal retirement benefit considering earnings and service prior to date of termination.

Survivor Benefit

Upon the death of a member prior to age 60 and after completing at least one (1) year of service, a monthly benefit equal to 40% of the member's salary for the year of his death less monthly survivor benefits payable under the Social Security law shall be payable to his surviving spouse if she has at least one dependent child and was married to the member at least one (1) year prior to his death. Upon attainment of age 60 the dependent spouse shall be paid a benefit equal to 50% of the normal pension which the member would have received assuming service had continued to accrue to age 60 and the final average salary determined at death. In addition, a monthly benefit equal to 10% of the member's monthly salary less the benefits payable to child under Social Security law shall be payable to each eligible children until he attains age 18 or marries, or until attainment of age 22 if he is a student and not married.

Any member eligible for normal retirement may elect the protective survivorship option by selecting option 2 or 3 under the Optional Benefit section. This survivorship option shall become effective at the death of the member. If any member eligible to elect an option shall die in active service, without selecting an option, his surviving spouse shall be paid a survivorship benefit equal to the amount that would have been payable if such member had retired under option 3 immediately prior to his death.

TABLE 16

SUMMARY OF BENEFIT AND CONTRIBUTION PROVISIONS
(Continued)

Optional Benefit

In lieu of the full retirement benefit, any member at retirement may elect to receive an actuarial equivalent reduced retirement benefit in accordance with the following options:

- Option 1. In case of death before benefits attributable to his mandatory account have equaled the amount of his membership account at the date of retirement, the balance shall be paid to a designated beneficiary or to his estate; or
- Option 2. At the death of the member, one-half of the reduced benefit shall be continued throughout the life of designated beneficiary; or
- Option 3. At the death of the member, the same reduced benefit shall be continued throughout the life of designated beneficiary.

Other Benefits

Simple COLA	2% of original benefit increase per year to retired employees (surviving beneficiary receives proportionate amount based on survivorship percentage).
Contribution Refund	Refund of employee voluntary contribution upon severance.
Backdrop Benefit	Employee may opt to receive a monthly benefit earned as of a specific date in the past (backdrop date). The backdrop date may not be prior to the earliest date that the member was eligible to retire and shall not be less than one (1) year prior to the date the member leaves active County service. Employee receives a cash payment equal to monthly benefits that would have been paid between backdrop date and actual retirement date plus interest earned.

Members not eligible for backdrop benefits are Elected Officials, non-represented employees and deputy sheriffs hired on or after March 15, 2002, Machinists and Teamco hired on or after November 4, 2005, Attorneys hired on or after January 1, 2006, Federated Nurses hired on or after December 15, 2005, Firefighters hired on or after June 19, 2007 and DC48 hired on or after February 1, 2007.

GLOSSARY

Accrued Liability	The difference between (a) the present value of future plan benefits, and (b) the present value of future normal cost. It is the portion of the present value of future plan benefits attributable to service accrued as of the valuation date. Sometimes referred to as "actuarial accrued liability."
Accrued Service	The service credited under the plan, which was rendered before the date of the actuarial valuation.
Actual Funding Contribution	The Actual Funding Contribution for a plan year is calculated using census and asset information as of the first day of the plan year, and includes Normal Cost, with interest to the end of the plan year, and a net amortization payment.
Actuarial Assumptions	Estimates of future plan experience with respect to rates of mortality, disability, turnover, retirement, rate or rates of investment income and salary increases. Decrement assumptions (rates of mortality, disability, turnover and retirement) are generally based on past experience, often modified for projected changes in conditions. Economic assumptions (salary increases and investment income) consist of an underlying rate in an inflation-free environment plus a provision for a long-term average rate of inflation.
Actuarial Cost Method	A mathematical budgeting procedure for allocating the dollar amount of the "present value of future plan benefits" between the present value of future normal cost and the accrued liability. Sometimes referred to as the "actuarial funding method."
Actuarial Equivalent	A series of payments is called an actuarial equivalent of another series of payments if the two series have the same actuarial present value.
Actuarial Value of Assets	The value of current plan assets recognized for valuation purposes. Based on a smoothed market value that recognizes investment gains and losses over a period of three years.
Amortization	Paying off an interest-bearing liability by means of periodic payments of interest and principal, as opposed to paying it off with a lump sum payment.

EXHIBIT IX

GLOSSARY
(Continued)

Annual Required Contribution	The Annual Required Contribution, or ARC, is the amount determined in accordance with Governmental Accounting Standards Board Statements Nos. 25 and 27.
Budget Contribution	The Budget Contribution for a year is based on census and asset information as of the first day of the PRIOR plan year, rolled forward to the next plan year based on all actuarial assumptions being met. For example, the Budget Contribution for 2008 is based on census and asset information as of January 1, 2007, rolled forward to January 1, 2008.
Contribution Variance	The difference between the Actual Contribution and the Budget Contribution for a plan year is referred to as the Contribution Variance. A Contribution Variance resulting from an overpayment is amortized over 5 years as a level dollar credit. A Contribution Variance resulting from an underpayment is amortized over 5 years as a level dollar charge.
Experience Gain (Loss)	A measure of the difference between actual experience and that expected based upon a set of actuarial assumptions during the period between two actuarial valuation dates, in accordance with the actuarial cost method being used.
Normal Cost	The annual cost assumed, under the actuarial funding method, for current and subsequent plan years. Sometimes referred to as "current service cost."
Present Value	The amount of funds presently required to provide a payment or series of payments in the future. The present value is determined by discounting the future payments at a predetermined rate of interest, taking into account the probability of payment.
Unfunded Accrued Liability	The difference between the actuarial accrued liability and valuation assets.
